

General Assembly of the
European DIGITAL SME Alliance
11 of September, 2019
Brussels

Block.IS is an acceleration programme that aims to **foster the use of blockchain technology** in three vital sectors for the European economy: agrifood, logistics and finance. Block.IS will create the blockchain accelerator which **supports SMEs and start-ups** all the way from ideation to commercialization offering them tailored business and technical support as well as direct funding.

Block.IS main features:

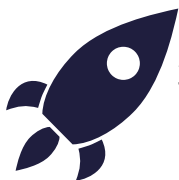

4 blockchain-ready software enablers

1-1 Business mentorship

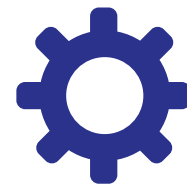

Tailored tech support

3 Immersive bootcamps

Pan-EU pool of investors and corporates

Support helpdesk

Block.IS offer for DIGITAL SME members:

Through its SME support, Block.IS offers **€2.8 M** of total funding through **2 open calls for SMEs**). In total, **90 SMEs** will be funded. **First call is now open!**

Block.IS also offers a chance to **participate in Cluster missions**. Missions aim to bring clusters together, to share best practices and to understand better how their members can benefit from funding, business and technical support. **15 missions** will be organised, **travel costs reimbursed**. The first Cluster mission takes place in Novi Sad, Serbia on the 27-28 of September. **New missions will be announced in September!**
