SBS FORUM ON ICT STANDARDS FOR SMEs

e-invoicing and e-identification

Viky MANAILA
Managing director

TRANS SPED
eIDAS Regulation

- Published in September 2014
- eID and Trust Services
  - electronic signature
  - eSeals
  - time stamps
  - e-delivery
  - preservation of signatures/digitally signed documents
- Common legal framework across EU MS for people, companies (in particular SMEs) and public administrations to safely access to services and do transactions online and across border in just "one click"

www.transsped.ro
Why Standards?

- One single digital market
- Avoid interoperability issues
- EU building blocks (based on standards)
- Higher security and more convenience for any online activity:
  - submitting tax declarations, enrolling in a foreign university, remotely opening a bank account, setting up a business in another Member State, authenticating for internet payments, bidding to on line call for tender
